CUT YOUR LIVING COSTS MAKE CASH PROFITS-TOO

PLANT STARK PRIZE FRUIT TREES Have Plenty to Eat and Put Up—and Surplus Fruit to Sell—at Top Market Prices!

You can "plant pennies and pick dollars" if you plant a small plot of ground (even your home yard) with STARK Young and Heavy-Bearing Prize Fruit trees. It will produce returns that will astound you . . . in health, better living, lower living costs . . . yes, and CASH Profits too. You can have plenty of deliciously flavored fresh fruit in season, full of health-giving vitamins . . . plenty to can, to quick-

freeze, to put up in jams, jellies and preserves to enrich the winter diet . . . and some to sell at fancy prices for a FINE CASH PROFIT. There is prosperity for you in STARK Prize Fruit Trees . . . quick prosperity . . . for STARK trees are huskier, bear younger, and the heavy crops of super-quality fruits will delight you. Plant NOW . . . THIS FALL . . . protect yourself for your later years.

Mothers! Make Your Children Strong and Healthy With Husky Bodies and Sound Minds!

JOIN NOW IN THE NATIONAL HEALTH DEFENSE PROGRAM

PLANT THIS FALL—MAKE YOUR HOME YARD AN ARSENAL OF HEALTH-GIVING FRESH FRUITS!

A Message from
LLOYD C. STARK,
Governor of Mo.
1937-1941

If you have a back yard, a garden, or a small piece of land on the farm, use it to protect your pocketbook—and your own and your children's health. Plant it in fruit trees. Let your children grow up amid the bountiful health-giving goodness of delicious, juicy fresh fruit. Feed it to them freely. Start them off in life with the foundation of health and strength, sound bones and strong muscles that come from a diet containing the vitamins and many other essential food elements to be found in tree-ripened fruit.

The health of America's citizens is our nation's greatest asset. Government health experts have realized for years that careless eating habits and the lack of high-vitamin-content foods were lowering the health standards of our people, and that steps to educate our citizens to eat more of the proper foods should be taken.

But now that we are in a great national emergency, the health of Americans, as never before, MUST be raised to the highest standards. The U. S. Government has embarked upon a gigantic National Health-Defense Program—they are urging the growing of more fruit—they want EVERYONE to eat more fresh fruit for greater health and strength. Cooperate with your government in this great patriotic movement—make YOUR children strong, healthy Citizens of Tomorrow—give them plenty of fresh tree-ripened fruit, grown on YOUR OWN trees—and for greatest profit and satisfaction be sure they are STARK Improved Prize Fruit Trees.

PLANT THIS FALL—Gain a year —And Beat The Price Rise

Fall is the best time to plant. Trees planted now will establish their roots stronger this fall and start root growth immediately. Buy NOW—plant NOW—THIS FALL—while you can have full choice of varieties and before fruit tree prices go up.

LLOYD C. STARK
GOVERNOR
EXECUTIVE OFFICE
STATE OF MISSOURI
JEFFERSON CITY
December 1, 1940

Hon. Clay B. Stark, President
Stark Bro's Nurseries
Louisiana, Missouri

Dear Clay:

On my last trip to Washington I learned that War Department and other high Government officials are gravely disturbed because of the great number of men called under the Selective Service Act who fail to pass their physical examinations.

I am informed on the highest authority that leading U. S. Government officials, including Dr. Harnan, head of the U. S. Public Health Service and Surgeon-General of the Army, will urge a much greater use of fresh fruits and vegetables in the National diet, to strengthen and improve the health of our American youth and all the citizens of the country. I conferred with General Means and I am seriously impressed with the gravity of the situation.

I am writing to urge that you do your utmost to spread the gospel of more home orchards to meet the vital need of fresh tree-ripened fruit for National Defense purposes. I hope that you will find a way to make it possible for every farmer and home owner to have a home orchard of fruit trees and small fruits -- not only for his own health and welfare but also for the better health and welfare of all the American people.

After this trip to Washington, I am deeply impressed with the extreme peril of this situation and the great need of promptly correcting a condition so menacing to the safety of our Nation.

Sincerely yours,
Lloyd C. Stark
Governor of Missouri

TO ASSURE YOU TREE VALUE

Stark Bro's have combed the country for the best fruit trees of all varieties—and this search never stops. By discovery and purchase—and endless work in the world-famous Stark Test Orchards of "1000 varieties"—Stark Bro's are able to offer the fruit growers of America super-values in trees—extra values in sturdier trees, that bear younger, and produce bigger crops of higher-quality fruit that command top-market prices.

Stark's U. S. Patent—EXCLUSIVE

Why STARK TREES ARE

Every Stark Fruit Tree is a . . . "RECORD-BEARING-STRAIN TREE"

(Stark Trade-Mark)

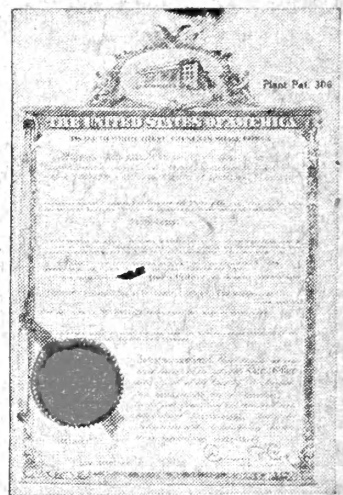

What hens lay the most eggs? Those with parentage of heavy-laying records, of course. You might call them "Record-Laying-Strains." What kind of live-stock is more profitable? Pure-breeds of course, those coming from record-bearing parentage, celebrated for size, quality and breeding ability.

Now what do we mean when we say every Stark Tree is a "Record-Bearing-Strain" Tree? We mean just this. Every Stark Tree is propagated direct in line from the finest tree of that variety that we could locate in the whole United States. It means that back of every Stark Tree is a known record of superior accomplishment.

Just as the parentage of poultry and live-stock determines the size, quality and productivity of poultry and live-stock, so, too, does the parent-tree influence the size, quality and productivity of the trees.

The "Mother" trees of Stark's young and heavy-bearing varieties were discovered all over the country. Some, known as "Bud Sports," are producers of new fruit varieties, while others, of standard varieties, are the highest type of tree of the kind we can find—selected because of extra size or color of fruit, strength, vigor, heavy and regular bearing of the tree. From these "Mother" trees of all varieties originates every Stark "Record-Bearing-Strain" tree.

That is why we say 'it pays to buy the best' in trees—Stark "Record-Bearing-Strain" Trees, grown on Stark Special Whole Roots and propagated from "Mother" trees with superior records of productiveness for quality and profit.

U. S. Patent Certificate, granted Stark Bro's on one of many of our Patent Trees, Shrubs and Roses.

Under the laws of the U. S. Government, these valuable new varieties—Patented by Stark Bro's—can be **SOLD ONLY** by Stark Bro's Nurseries, Louisiana, Mo.

The Proper Place for the Union Where the Root Cells Blend Into Wood Cells

(Copyrighted and **SOLD ONLY** by Stark Nurseries, Louisiana, Mo.)

A tree draws its nourishment from the sun, air, rain—but first and most important of all—from the earth in which it is planted. It is easy to see why the roots are the most important part of the tree—they are the feeders that draw from the earth vital substances necessary to the growth and bearing of the tree. If the roots are big, strong and vigorous, they will reach deeply into the soil and draw heavily upon these vital substances to nourish the tree richly and produce quick, strong, vigorous growth—and young and heavy-bearing.

Note the picture at the left. It illustrates one of the basic secrets of the Stark Special Whole-Root Grafting Method. In propagating Stark Trees the graft is inserted where the wood-cells of the tree meet and blend with root cells. Here nature helps to make a perfect union, and the grafted member draws full, rich nourishment for strongest growth.

This Special Stark Whole-Root Method also includes the nursery secrets and experience of more than 125 years—handed down from father to son, through six generations of Stark Nurserymen.

THE RESULT—is Stark Special Whole-Root trees with heavy root systems and a wealth of root fibers that give the tree a quick start, rapid growth, young-bearing, superior strength and longer life.

This extra strength and vigor enable Stark Trees to withstand the sub-zero rigors of the far north and the heat and droughts of the far Southern sections—better than locally grown trees with less vigor and stamina.

Stark Special-Method Whole-Root Trees Yield Bigger Crops of Fruit

Of course, to begin with, Stark trees have a big advantage over ordinary trees—because they are Stark Record-Bearing-Strain trees. Also, as a result of Stark's Special Whole-Root Grafting Method and the bigger, stronger root structure, they not only grow faster and sturdier, are harder to heat and cold, mature earlier and bear younger, than ordinary trees—but when in full bearing they are also harder, and constantly produce bigger crops of better fruit year after year. The bigger, stronger root structures of Stark Special Whole-Root trees draws more nourishment from the soil to produce bigger crops and better fruit.

Stark Special-Method Whole-Root Trees Produce Bigger Profits Year after Year

Year after year, as the trees grow and bear fruit, the advantages of Stark "Record-Bearing-Strain" Whole-Root Trees over ordinary trees, become greater and greater. Stark trees bear increasingly larger crops in comparison with ordinary trees as the years go by. Even if you grow fruit only for your own use, be sure to plant Stark "Record-Bearing-Strain Trees"—your surplus fruit sold at best market prices will pay for the trees over and over again. And if you grow fruit for sale, you cannot afford to plant anything but Stark Trees.

at PLANTING TIME

AT 6 YEARS OLD

WHICH TREE WOULD YOU WANT

Stark SPECIAL-METHOD Whole-Root Trees Grow Faster — Bear Younger — Produce Heavier

Notice the trees pictured above. At the left see the ordinary tree with weak roots—and alongside it, the Stark Special Method Whole-Root Tree with luxurious root structure.

See what happens as the years pass—above at the right are pictured the same trees six years later. In those years the strong root formation of the Stark Tree has drawn abundant nourishment from the soil to bring it to young and heavy bearing, while the ordinary tree alongside of it, because of weak roots, lacks stamina and vigor—is still spindly, undeveloped and shy-bearing.

NEW - YOUNG and Heavy Bearing Fruit Trees

STARKING -- The NEW Double-Red Delicious

"The Most Profitable of All Red Apples"
— says U. S. Senator Harry Byrd

BEWARE of Imitations

Genuine STARKING Trees
SOLD ONLY by Stark

To the marvelous flavor and all the other superior qualities which won world-wide fame for our Original Stark Delicious, STARKING Double-Red Delicious, adds, Younger Bearing and Earlier All-Over-Red Coloring. STARKING Apples are first on the Delicious market and bring PREMIUM PRICES, often 30% to 40% more than Delicious. Starking can be picked when hard ripe and full of juice (they never get mealy). At the same time they have the flashing bright red color necessary for highest priced color grades. That is why STARKING Double-Red Delicious is recognized as the World's Best Red Apple.

Whether you plant a Home Orchard for your own family's fruit supply; a Local Market Orchard or a Commercial Orchard, you will find STARKING Apple which tops all markets year after year and begins to bear earlier than the Original Stark Delicious.

Here are just a few of the hundreds of enthusiastic reports growers from all parts of America are sending us about their own phenomenal success with STARKING Double-Red Delicious.

Warning—Genuine STARKING Trees are Sold Only by Stark Bro's

"Most Delicious Red Apple in the World"—Luther Burbank

"The superlative Starking apple simply cannot be compared with any other red apple. Its crisp flesh is overflowing with an exquisite, aromatic flavor—and a rich, refreshing juiciness not found in any other red apple."—Luther Burbank, Santa Rosa, California.

"All my customers say that Starking is the best red apple they ever tasted and the most beautiful they ever saw. I get 25 per cent more money for them than for any other apple. My Starking trees bore 3 years younger than old Delicious."—A. Svonavee, Summit Co., Ohio.

"We Get Fruit Years Sooner"

"Picked my first crop from my 120 Starking trees when they were only 3 years old. All of them graded No. 1 Extra Fancy for color. This earlier, All-Over-Red Coloring makes them highly desirable in the eyes of the public and they always sell for high prices."—T. H. Miller, Yell Co., Arkansas.

"Starking apples at picking time are much firmer-fleshed apples and even better flavored than Delicious. I have 200 Starking trees now 5 years old. They bore their first crop at 3 years and are younger bearers than Delicious."—Edward E. Heid, Jefferson Co., Indiana.

"Two of my 3 year Starking trees bore 4 bu. each. All trees averaged 2½ bu. and the apples were very large—running 64, 72 and 80 to the bu. Every apple had 100% SOLID RED COLOR. Starking apples sell at a good premium."—Jos. A. Richartz, Washington.

"Starking Is Hardy in North—Thrives in South"

100% Solid Red

"Starking is a great improvement over old Delicious, as Starking is 100 per cent red even in shady parts of trees. It is also better flavored. Headed up in barrels for 6 months in a cellar only half a dozen showed signs of rot."—R. S. Ward, Nova Scotia.

"My 400 young Starking trees bore from 5 to 7 bushels each and sold for \$3.50 per bushel. They always bring the top price on every market."—R. L. Wallace, Knox Co., Tenn.

"Despite the drouth, many of my young Starking trees bore 2 barrels (6 bushels) each this year of fine Extra Fancy No. 1 apples. The entire crop was 100 per cent all-over-red the first week in September. The crop was remarkable because these Starking trees withstood a 20 degrees below zero spell last winter."—D. Gold Miller, Berkeley Co., W. Va.

"Starking Is the Most Profitable Apple"

Says U. S. Senator Harry Byrd of Virginia

World's Largest Grower. Plants 6031 More Starking Trees. To Grow Nation's Finest Orchard. He Selected Stark Exclusive Leader Varieties.

"Whenever we can cut out unpopular and unprofitable varieties and plant improved varieties we should do so," Senator Harry Byrd told the members of the Virginia Horticultural Society. "Red Delicious (Starking) is the most profitable variety we can grow."

NOTE: Senator Byrd practices what he preaches. Last year alone he planted 6031 STARKING (Red Delicious). He also planted large quantities of Scarlet Staymared, Red Rome Beauty, Golden Delicious, Staymared, etc.

"Starking Stays Crisp and Juicy Till Apples Come Again"

"The keeping quality of Starking apples is ASTONISHING. I have had them up to June the next year after picking and THEY WERE STILL FIRM, CRISP and JUICY."—P. Weisbrod, Kossuth Co., Iowa.

Prof. T. J. Talbert, Mo. State Horticulturist, after sampling Starking apples that had been in storage from October one year to December the next year (15 months) stated: "These have held up remarkably well. Show no signs of scald or decay, have retained their fine deep red color and are good to eat. Still very firm and juicy. High quality and good shipping and keeping ability."

"This extra red color of Starking assures fruit growers Earlier Picking, Firmer Fruit for Long Storage Keeping and Better Quality During a Longer Storage Season."—Prof. Gourley, Chief Ohio Hort. Dept.

"The increased color of the Starking makes it possible to pick the fruit earlier and make the apples keep longer. This is of great value to commercial orchardists."—Prof. Potter, New Hampshire State Horticulturist.

"Starking Brings Top Prices"

Says Midwestern Grower

"Several years ago," says Mr. Frank Penstone, a successful Illinois fruit farmer, "I set out about 10 acres to Stark trees. This was so much more profitable than farm crops that I kept adding to my orchard until I now have 100 acres."

"Last year there was a big crop everywhere, but because I had Stark leading varieties—including Starking and Golden Delicious—I made more money off of my fruit last year than I ever made before. Again this year Starking and Golden Delicious trees are loaded. Some Starking trees average 13 to 14 bushels and they are beauties. I picked Starking that graded 64 to the bushel and even now (Sept.) they are bright red all over. That's the advantage Starking has over Delicious. The all over red color of Starking makes them bring 33% to 50% more than Delicious year after year."

"Youngest Bearer Ever Discovered"—Said Luther Burbank

STARK'S GOLDEN DELICIOUS

The great, new Young Bearing Golden Delicious Apple brings to mankind a New and Distinctive Fruit Delight—A Large, Glowing, Golden Yellow Apple, that is creating a sensation on the apple markets of the World and adding health and wealth to all who grow it. In Back Yards, in Home Orchards, in Local Market Orchards, in large Commercial Orchards—it is the heaviest, youngest bearer—the biggest money maker.

Once you have feasted your eyes on the rich golden beauty of Golden Delicious and sunk your teeth into its crisp, firm, delicious, juicy flesh—once you have enjoyed its sparkling, tangful flavor (reminiscent of a perfectly ripened Bartlett Pear)—YOU, too, will join the throng at Home and Abroad who acclaim STARK'S GOLDEN DELICIOUS as the "FINEST FLAVORED APPLE IN ALL THE WORLD."

Stark's Golden Delicious is the BEST All-Purpose Apple ever discovered. For eating fresh it is supreme—for glorious apple pies—for health-giving baked apples—for delectable apple dumplings—for savory apple sauce (it requires no sugar)—for canning and preserving—Golden Delicious imparts a distinctive, intriguing flavor which will delight your palate. For crisp, delicious salads it has no equal (Golden Delicious sliced, retains its rich golden color)—and for cider, Golden Delicious is superb. Invalids who cannot eat ordinary apples thrive on Golden Delicious.

Golden Delicious is one of the few fruits

to receive the coveted WILDER MEDAL—highest Award in horticulture. This great honor was bestowed upon it by the American Pomological Society after exhaustive investigation proved the Supreme Merit of GOLDEN DELICIOUS.

WARNING—Genuine GOLDEN DELICIOUS Trees Are SOLD ONLY By Stark Bro's

One April day a package arrived at Stark Nurseries. When it was opened, out rolled three huge, golden globes of succulence—yellow apples of amazing size and a new delightful flavor. In appearance and taste they combined the best qualities of Grimes Golden and Stark Red Delicious—and yet the taste was new, and deliciously different, reminiscent of a perfect Bartlett pear. These apples had been picked the preceding fall and although stored all through the winter they were wonderfully crisp and juicy—almost as though fresh-picked.

They were sent to us by a farmer in the West Virginia mountains, who knew, as do all fruit growers, that Stark Nurseries conduct an unceasing search for new and improved fruit varieties. The following Fall, Paul Stark, eager with hope, yet beset by the fear of disappointment, started on the long trip to the farm of A. H. Mullins—1,000 miles by train and a 20-mile horseback ride through West Virginia mountain wilds.

Arriving at Mr. Mullins' home, he literally ran to the orchard. As he came closer and closer his heart began to sink for, as he scanned the trees every one seemed to be but a wild seedling—runty, small trees. But no!—what was that? One tree stood forth from all the others—a tree with rich green foliage, its boughs bent almost to the ground with a great crop of big glowingly-golden apples, just like the three beauties Mr. Mullins had sent to Stark Nurseries!

Thus was discovered the great Stark Golden Delicious, acclaimed by pomologists and horticulturists throughout the whole world as the most wonderful apple discovery of all time.

Because—Golden Delicious Bears Younger Than Any Other Apple—it Bore at 2 Years Old in 22 States—and often in heavy bearing before others produce an apple. Even at 3 and 4 years growers report profitable crops;

Have 200 Golden Delicious six and eight years old. Began bearing at 3 years. This year a splendid crop. Some trees as much as 10 bushels. Always bring high prices. Particularly resistant to drought, the best variety in this respect, also more resistant to fire blight.—Thomas J. Harwell, Virginia.

Because—Frosts Do Not Stop Golden Delicious—A late bloomer, it stands more unfavorable weather, late frosts and freezes at blooming time than any other and comes through with a crop;

250 Golden Delicious in my orchard here came through the coldest winter for 40 years—ranging from 43 degrees below zero here to 55 degrees in the villages. Seem hardy as McIntosh and bear third year after planting, producing nearly 3 bushels each at 5 years.—A. H. Ingalls, Abercorn, Quebec, Canada.

Because—Golden Delicious is the Most Satisfactory Orchard Tree—Young bearing, Annual bearing, Heavy bearing, Strong growth, Hardy, Frost, Blight and Disease resistant, Extreme Hardiness—Trees have withstood 43° below zero in Canada;

I have 50 Golden Delicious 8 years old that will average 3 bushels per tree. Blossoms of other varieties were frozen but Golden Delicious came through.—C. L. Grimm, Pennsylvania.

Because—Golden Delicious Makes Growers Bigger Profits Quicker—Because of young bearing, heavy annual crops, and the Extra premium prices the fruit brings, Golden Delicious insures quick profits and big profits—Double Profits—compared with standard varieties;

My 120 Golden Delicious 8 or 9 years old produced from 4 to 10 bushels per tree. I received twice as much as for others. The tree is better, more hardy, will stand frost and cold better than others.—John T. Rader, Missouri.

Because—Golden Delicious Grows and Bears Everywhere—Gives 100% success in every section where apples grow—Extreme hardiness for the North and success for the South;

My Golden Delicious are 12 years old. Commenced bearing at 3 years—and have never failed—have borne 12 bushels per tree. Brings 50c to \$1 per bushel above others.—W. B. Landis, Iowa.

Because—People Go Wild Over Golden Delicious—As people learn of the superb flavor of Golden Delicious, they will buy no other apple. No other apple sells so readily at such high prices;

My customers like Golden Delicious apples better than any other. I get \$1 more a bushel for others.—Frank S. Foster, Illinois.

Because—Buyers Beg for Golden Delicious Everywhere—Buyers are eager to secure Golden Delicious—and growers do not have enough to supply the demand;

Although we had to market our bountiful crop of Golden Delicious against one of the biggest crops in history, we sold out at 3 times what others brought.—John C. Thompson, Tenn.

Because—Golden Delicious Bear Most Fruit Per Tree—No other variety produces as many bushels of fine apples year after year. Even when trees are only 6 and 7 years old, 5 to 10 bushels per tree is not uncommon;

Golden Delicious succeeds where other varieties fail—30 miles South of Atlanta, 5 and 6 year old trees loaded to breaking point.—J. O. Rutherford, Georgia.

Because—Golden Delicious Apples Keep Crisp and Juicy All Winter—One of the latest keeping apples, both in ordinary cellar and cold storage. Comes out in late Spring crisp, snappy, full of juice and most delicious;

All winter and spring, as late as on May 8th, the St. Louis GLOBE DEMOCRAT Market Report quoted these wholesale prices being paid at that late date by dealers:— "APPLES—Illinois Golden Delicious, \$3.00 to \$3.50 bushel. Delicious, \$1.50 to \$1.90; Yorks, selected, \$1.10 to \$1.25; Ben Davis, \$1 to \$1.10." etc.

STARK'S NEW U. S. PATENT

SCARLET STAYMARED

Takes on a bright flashing all-over Red 30 days before Stayman Winesap colors. SCARLET STAYMARED is adding tremendously to the profits of growers with highest First-on-the-Market Prices every year—brightest, flashiest of all—a long keeper.

Scarlet Staymared Trees are **SOLD ONLY** by Stark Nurseries—under **U. S. PATENT**. Scarlet Staymared is a true Limb Bud Sport of Stayman Winesap and possesses all the superior characteristics that have long made Stayman Winesap a national favorite—but in addition, it is bright red when Stayman is still green, it **BEARS YOUNGER** than Stayman and it does **NOT** crack like Stayman.

A large apple—with marvelous quality—juicy, delicious, spicy flavor—bears young—and everywhere it is creating a furore of praise among Home Orchardists and Commercial Apple Growers.

Crisp and Juicy till Late Spring. Because Scarlet Staymared colors a brilliant flashing all-over-red 30 days earlier, it can be picked when hard ripe and full of juice, so it will keep crisp and juicy till new apples come again—A **LATE KEEPER**—an excellent storage apple, does not scald in storage.

"Bearing at 2 Years"

Franklin Co., Va.
October 20, 1940

Stark Nurseries, Louisiana, Mo.
"Spring of 1938 we planted 100 of your Scarlet Staymared Apple trees. This year (when only 2 years old) one of them had 32 nice all-over-red apples. It looked so good I thought I would get a picture of it so I am enclosing two exposures."—J. S. Webster.

ONE MONTH
SOONER

Original Limb Scarlet Staymared Cost Us \$1,000.00 a Foot

To give **YOU** the profit-benefit of this amazing New Improved Scarlet Staymared Apple, we paid \$3,500.00 for this Original Sport Limb, 3½ feet long—nearly \$1,000.00 a foot. Recognizing in this great apple a valuable new variety, the U. S. Government awarded Scarlet Staymared a U. S. Patent—so all Genuine Scarlet Staymared Trees are grown and sold **ONLY** by Stark Nurseries under U. S. Patent.

"Growers Get 100% Fancy Color"

"A remarkable all-over-red Stayman—distinct, brighter red, a valuable new variety. The color is marvelous."—Prof. T. J. Talbert, Chief of Horticulture, University of Missouri.

A Big New Profit Maker for You

For the man who is planting a Home Orchard, a Local Market Orchard, trees to supply a Roadside Market or a large Commercial Orchard, Scarlet Staymared is recommended as one of his finest flavored, most flashy-looking leading profit-makers.

A veteran fruit grower, who has observed Scarlet Staymared since we first discovered this valuable new Bud Sport Variety, writes: "What STARKING has done for Stark Delicious, what JONARED has done for Jonathan, what RED ROME BEAUTY has done for old Rome—this new SCARLET STAYMARED has done for Stayman Winesap."

STARK'S NEW

U. S. PATENT

The Flashing Red-all-over Jonathan That's Solid Red Before It's Ripe
Keeps Later — *Because You Can Pick When Hard Ripe — Stops Drop*

The Search of the Scientists has finally Succeeded—Here is the marvelous, long-looked-for JONATHAN SPORT, which gets red-all-over two weeks BEFORE Jonathan colors—the **ONLY** Red Jonathan Apple to win recognition by the U. S. Government as a valuable new variety, and to receive a U. S. Patent — "JONARED" — Patented, Grown and Sold **ONLY** by Stark Bro's

"The JONARED Apple takes on a Blazing, Bright Red all-over color, about 2 weeks before Jonathan colors—has all the characteristics and fine points which made Jonathan one of the leading apples on the market—plus 100% extra fancy color. Sooner picking—because it colors earlier—gives Jonared longer keeping ability—Stops drop—Gets First-on-Market Top Prices.

I'm Certainly Glad I Planted Jonared 6-Year-Old Trees Averaged 5 to 6 Bushel. Brought 35c to 40c MORE Per Bushel"

"I certainly am glad I took your (Stark Bro's) suggestion and planted JONARED instead of Jonathan. Your JONARED came into light bearing for me in the third year and are six years old now and average from 5 to 6 bushels per tree, of beautiful all-over flashy red fruit, which sold for 35c to 40c more than the same grade Jonathan. These Jonared color up way ahead of the Jonathans, and I have been getting a better price on a Jonathan which I sell early in the season—but neither I nor any of my friends who grow Jonathans have been able to get good color until you people sold us the Jonared. That flashy finish certainly does the job."—Les Smith, ex-president Illinois Horticultural Society, Rock Island Co., Ill.

"Jonared Replacing Jonathan in Michigan"

"If Stark Bro's don't do anything else for the Michigan growers, they gave them JONARED APPLE" said the famous Commercial Orchardist Byce to Ward Lockwood at the Bangor Apple Show. "Wherever I happen to be in Michigan," wrote Stickney Stark, "Jonared seems to be entirely replacing Jonathan because of its extra fine flavor and all-over-red color."

"Michigan growers now realize the extra profits to be made in growing Stark Bro's new improved STARKING, GOLDEN DELICIOUS, JONARED and SCARLET STAYMARED. These are about the **ONLY** varieties that were widely discussed at the show."

EARLY RED
BIRD APPLE

A 12 MONTHS APPLE PLAN

Stark's
Double-Life
GRIMES GOLDEN

THE BEST APPLES TO EAT AND SELL EACH MONTH OF THE YEAR

Whether you plant Apple Trees for your own family's supply of delicious health-giving tree-ripened fruits or to supply Roadside Markets, the Commercial Markets or the ever-increasing Truck Trade, it is desirable and profitable to grow varieties which ripen in succession—from Early Summer to the Late Winter Apples that keep till Spring.

We recommend that you plant the following apples—along with STARKING (Double-Red Delicious), GOLDEN DELICIOUS, JONARED and SCARLET STAYMARED — for highest quality apples all through the seasons—Summer—Fall—and Winter.

EARLY RED BIRD—World's Earliest Apple. Most beautiful and most profitable Early Apple. First of the season—it ripens a week earlier than Yellow Transparent, and has brought growers double the price. Tree is very hardy. Bears young—bears tremendous crops.

GRIMES GOLDEN Double-Life. (Trade-Mark). The Yellow Apple which held the American Crown as "Queen of Quality"—until we introduced Stark's Golden Delicious. See page 6. Grimes Golden is good size, yellow, has exquisite aroma. Flesh is rich, crisp, tender, spicy and juice laden. Stark "Double-Life" propagating method (Trade Mark) was developed to control the fatal fault of collar rotting in Old Grimes—adding many years to the life of the tree right when it is at its most profitable bearing age. Sold ONLY by Stark Bro's.

HENRY CLAY (Trade-Mark). Earliest Yellow Apple. Larger than Yellow Transparent; better quality, a better shipper. Excellent yellow team-mate for Early Red Bird—ripens just after Red Bird. No other very early apple has such excellent quality. Commands top prices everywhere. Henry Clay should be in every Home and Commercial Orchard. Tree hardy, strong grower, blight resistant and heavy bearer. Introduced by Stark Bro's.

YORK-A-RED (U. S. Patent). Stark's new Double-Red Bud Sport of the old favorite "York Imperial." Identical with that old money-making favorite—with added red color which automatically brings higher prices and more profits. Fruit large, attractive, crisp, firm, good late keeper, good quality. Trees Patented and SOLD ONLY by Stark Nurseries.

WEALTHY Double-Red Our new Bud-Sport Solid Red Strain. (Sold ONLY by Stark.) Best Fall Apple. Gaining in popularity. Bears very young and every year. Good cooker. Superior quality, attractive, brilliant red, medium to large size. Extremely hardy. Plant in every Home and Market Orchard.

McINTOSH RED. This Stark Superior Double-Red, Heavy Bearing Strain of McIntosh adds tremendously to the value of this popular apple. Beautiful—uniform in size, all-over crimson, with crisp white delicious aromatic flesh. Hardy, long lived, strong grower. Bears young—a money-maker.

ROME Double-Red Stark's improved red-all-over Sport has all the good qualities of ROME BEAUTY—Large size; Tender, Juicy, Good Quality; Extremely Hardy, Annual Bearing Tree—plus Brilliant All-Over-Red color. World's best red baking apple. Get Genuine Double-Red ROME from Stark Nurseries.

DUCHESS Double-Red. Early. Our Special Red Strain. Rich acidity, excellent cooker. Prized for jelly making. Good shippers. Dwarfish grower. Hardy. Excellent for fillers and yards, where space is limited. Sold ONLY by Stark Bro's.

JONATHAN (Young-Bearing Strain) Ours is Record Young Bearing Strain. JONARED—See Page 7—is a fine new Double-Red improvement and better, bigger money-maker than Jonathan.

STARK DELICIOUS Stark Bro's discovered and introduced the Original Stark Delicious tree and revolutionized the apple industry. See Page 5 for STARKING, a "Double-Red" and younger bearing improvement of Stark Delicious.

WILSON RED JUNE. Large. Early apple. Brilliant deep red. Fine quality. Good shipper. Big money-maker.

STAYMAN WINESAP One of America's favorite apples for 50 years, but SCARLET STAYMARED—Page 7—is a younger bearing brilliant all-over-red improvement of Stayman.

BLACK BEN (Trade-Mark). Extremely late winter apple. Deep solid red. Keeps perfectly in cellar and storage. No scald. Bears young.

STARK KING DAVID (Trade-Mark). One of the youngest, heaviest bearers in the world. It blooms late and bears when other old stand-by apples are killed by frosts. Size larger than Jonathan. A glorious solid dark wine red. Full of spicy wine-like juice. The long-lived spread-

ing tree will bear more bushels than any other apple except Golden Delicious. A sensational favorite for the Home Orchard—a Profit-maker for the Local Market and Commercial growers. Introduced by Stark Bro's.

WINESAP (Stark Va. Strain) An old-time heavy bearing Red Apple popular in East, South and Central West. SCARLET STAYMARED—See Page 7—is Double-Red, Younger Bearing improvement.

NORTHERN SPY Double-Red. All-over-red—great improvement of this favorite of New England and North. Get genuine Double-Red Improvement. Sold ONLY by Stark Bro's.

YELLOW TRANSPARENT Ripe right after Henry Clay. Medium size, yellow, good cooker, sub-acid flavor. Very hardy.

See PRICE LIST—Page 11
For Other Apples

Stark Apples

STARK FLORENCE Most Beautiful Bloom—most prolific and most valuable crab. Fruit bright ruby red and crimson. Wonderful for jelly, sauce, preserves. Dwarf trees. Hardy.

STARK GOLD Sold ONLY by Stark Bro's. Pure golden crab. Makes exquisite spicy, aromatic jelly, pickles, preserves. Tree is hardy. Semi-dwarf.

DOLGO Beautiful bloom, new red crab. For pickles, jelly. Young, heavy bearer. Hardy Dwarf.

LINCOLN—THE BEST ALL-ROUND PEAR

This amazing Late-Summer Pear has proved to be America's Best All-Around Pear, especially where a BLIGHT-RESISTANT Pear is needed. Averages larger than Bartlett—Clear, Beautiful Yellow with a Bright Red Cheek. For eating it is delicious; for canning it has no equal—an ideal shipper. A Hardy, Blight-Resistant Tree; a Heavy Bearer—highly recommended for both Home and Market Orchards.

"Equals Bartlett in Flavor"—says Idaho Grower

"Lincoln is Blight Resistant—more blight resistant than any other; equals Bartlett in flavor and texture. Good keeper, have never discovered a winter-killed tree."—J. W. Jones, Emmet Co., Idaho.

BARTLETT (Summer) The great favorite in all orchards and on all markets because of delicious flavor. Large, rich golden yellow blushed red; rich, delicious flavor. One of the best for canning and shipping. Tree strong grower. Regular bearer. We advise planting Lincoln in sections where Pears blight badly.

FAME (Late Summer) One of the most delicious Pears in the world. Juicy, melting, sweet and rich. Large, blushed yellow. Hardy, strong, long-lived tree; a young bearer; Blight resistant. We highly recommend Fame for all Home and Local Market Orchards. Introduced by Stark Bro's.

GORHAM (A New Late Bartlett) Resembles Bartlett in size, shape, color and delicious flavor—but ripens 2 weeks later. Tree vigorous, hardy, VERY RESISTANT TO BLIGHT. A splendid pollinizer. Georgia Exp. Station reports "Much more blight resistant than Bartlett."

STARK SECKEL—Sugar Pear. (Late Summer). A select large strain of the wonderful and delicious Seckel, that for generations has been recognized as the pinnacle of Pear quality. Medium size, beautiful russet yellow, spicy honey-flavor—the acme of pear perfection. Tree succeeds in all sections.

STAR
FEATURES OF
STARK
TREES

ANOTHER STARK EXTRA VALUE

Stark's Special Whole-Root Grafting Method produces hardy trees with big, strong root systems that draw from the soil an abundance of the vital substances necessary to rapid, sturdy growth and young and heavy-bearing. When you get Stark Trees you get strong whole-root trees.

Burbank's CHRISTMAS HOLIDAY Pear

Burbank's Great Pear Creation. A huge, smooth skinned, lemon russet yellow pear. Attains its highest quality and most delicious flavor at Christmas time. Striking—long necked. Resembles Beurre Bosc in shape and flavor. Pick in November and store for a delightful treat during the Holidays. Trees Grown and SOLD ONLY by Stark Bro's.

CONFERENCE (Late Fall). An English variety now gaining in popularity here, as a late-ripening market pear of high quality, heavy bearing and blight resistance. Similar to Beurre Bosc in shape—better quality than Bosc.

DUCHESS (Fall). Extremely large—often weighs a pound. Has been a favorite in the Home and Market Orchards for generations.

KIEFFER (Winter). The most widely planted pear because it bears and pays. Large, rich golden yellow. Fine for canning, preserves, baking.

BEURRE BOSC (Winter). A large, deep yellow, long-shaped extra sweet, juicy winter pear.

ANJOU (Late Fall). Large, late fall Yellow Pear blushed dull Red, richest flavor. Tree hardy. Bears young. Blooms late. Remarkably free from blight. Succeeds everywhere. Favorite for both home, market and commercial orchards.

STARK TYSON (Very Early Summer) Looks just like Seckel but ripens extremely early. Medium size, sweet, juicy, excellent quality.

Stark

VAN DEMAN (Trade-Mark) Stark paid Burbank \$3,000.00 for this Quince. Luther Burbank wrote: "Baked, Canned or dried it retains best quince flavor. Side by side with other varieties is superior in size, quality, flavor and beauty." Hardy. Heavy bearer. Sold ONLY by Stark Bro's.

Burbank JUMBO. Sold ONLY by Stark Bro's. A New Creation by Luther Burbank. Enormous size. Good quality. Beautiful, vigorous tree.

ORANGE An old favorite—probably the leading commercial variety.

JUNE to NOVEMBER Plenty to Eat and Put Up

AT FANCY PRICES

Beautiful, luscious Peaches, for YOU and your CHILDREN picked fresh from the trees—full-ripe-rich in Vitamins—and at the height of their delicious goodness—this is the dream-come-true of every Home Owner who wants to grow his own fruit and SAVE MONEY.

Stark Peach Trees often bear good crops 2 years after planting and are quick to pay big dividends in delicious health-giving fruit and enormous money profits.

Plant several varieties to give a continuous succession of ripening, and a continuous money income. Insure your FAMILY and your CUSTOMERS the most delicious high quality Peaches from JUNE till NOVEMBER.

— World's Largest Peach. Original tree at 4 years Bore 6 Bushels. Many weighed 1 pound each. Trees SOLD ONLY by Stark Nurseries under U. S. Patent.

This huge yellow-fleshed FREESTONE Peach—larger even than the enormous J. H. Hale—extends the J. H. Hale-Elberta ripening season with an exceptionally high quality yellow flesh Freestone.

It is breaking all records in gaining popularity and has been acclaimed by the Georgia Experiment Station as "The Largest Peach We Ever Saw."

Growers of high quality peaches for the Home, for Local Markets and for Commercial shipments all join in praising this great peach. Never since we have introduced this marvelous new peach have we been able

to supply the growing demand for Hal-Berta Giant Trees. Every Home and Market Orchard should have Burbank's July Elberta, Stark Early Elberta, Hal-Berta Giant, Golden Elberta Cling and J. H. Hale.

— U. S. Patent — A Sensational Producer and Great Money-Maker. Trees SOLD ONLY by Stark.

VERY EARLY YELLOW FREESTONE. This Peach Masterpiece was created by Luther Burbank—the World-Famous Plant Breeder. Trees are protected by a U. S. Patent and are Grown and SOLD ONLY by Stark Nurseries.

Burbank's July Elberta is a flashing, fiery red on the outside—delicious golden yellow flesh, with no bitterness and practically no red at pit. It has been acclaimed THE NEW PEACH SENSATION from New York to California and from Canada to the Gulf, because of its Very Early Ripening Season, its Delicious Flavor and High Quality, plus its extreme HARDI-

NESS (Burbank's July Elberta often bore heavy crops when all other Peaches failed).

Every year since we introduced Burbank's July Elberta the demand has been greater than we could supply. Order YOUR trees EARLY. Remember, Burbank's July Elberta Trees are Patented and SOLD ONLY by Stark Nurseries.

— America's Finest Quality Yellow Freestone. Genuine Trade Mark. Trees SOLD ONLY by Stark.

For eating fresh and for canning, Stark Early Elberta leads all other peaches in delicious flavor (except only the New Burbank July Elberta)—and in glorious beauty of color and form. No red or bitterness at seed—America's Leading Canning Freestone Peach. Large size, pure golden yellow skin, often tinted with flashing red. It has a strong protecting skin which makes it the World's Best, High Quality Shipper. After traveling by ordinary mail for 11,508 miles without an ounce of ice, Stark Elberta reached destination in good condition.

Home and Farm Orchardists, Local Market and Commercial Growers should plant RED BIRD CLING, STARK JUNE ELBERTA, GOLDEN JUBILEE, ALTON, BURBANK'S JULY ELBERTA, STARK

EARLY ELBERTA, GOLDEN ELBERTA CLING, J. H. HALE, HAL-BERTA GIANT, HALATE, STARK LATE ELBERTA, and KRUMMEL OCTOBER. This insures your family and your customers highest quality Peaches from June until November.

— World's Finest Canning Peach. Genuine Golden Elberta Cling Trees SOLD ONLY by Stark.

MID-SEASON, YELLOW CLINGSTONE. The sweetest, finest, most delicious and most beautiful yellow fleshed Clingstone the world has ever known.

The fruit looks somewhat like Stark Early Elberta—about the same shape, the same marvelous golden color—but IT IS A PERFECT CLINGSTONE. Quality superb, honey sweet juice and flesh—the most alluring quality of any clingstone—yet so firm, so solid, that it will ship almost any distance without breaking down.

J. H. HALE — "The Million Dollar Peach"—Mid-Season Yellow

Originated by Mr. J. H. Hale—"The Peach King." In size, color, texture, flavor, keeping and shipping qualities, J. H. Hale surpasses old Elberta. Mammoth size, vivid carmine over golden—almost perfectly round—fuzzless and smooth as a glove. Its giant size and glorious color commands instant attention on all markets.

Flesh is solid like a Cling, yet melting, tender, free from grain and stringiness. Has exquisite peach flavor—without any of the bitter tang of Elberta. Excellent shipper. Tree bears heavily and thrives in a wide variety of climates and soils.

ALTON — Hardy, Early White Semi-Cling
Usually a true Freestone—sometimes a Semi-Free. A magnificent White-Fleshed Peach. Fruit is creamy white, with glossy blush of rosy pink. Flesh is firm, white, sweet and juicy. Flavor is rich and delicious. Tree is strong, vigorous, immensely productive and extremely hardy, both in bud and bloom. Year after year growers report that Alton is one of the hardiest varieties. Ripens 25 to 30 days ahead of Elberta and about 15 days after Red Bird Cling. We recommend Alton for Eating, Cooking, Canning, Market. Introduced by Stark Bro's.

BELLE OF GEORGIA — Mid-Season White Freestone
Has often been called "Red and White Elberta." Hardier and more dependable bearer year after year than Elberta. Trees hardy, vigorous, sure-bearers. Fruit large size, creamy white with bright red blush. Our RECORD-BEARING strain is very large and simply delicious in quality. Splendid shipper. Ripens about 8 days before Elberta.

ELBERTA — Large, QUEEN Strain—Mid-Season Yellow Freestone. Stark select large RECORD-BEARING QUEEN Strain is from the best tree in a large Elberta Orchard. Larger, rounder and often brings 50c to 75c more per bushel than other Elbertas.

Elberta is known all over the world as the standard market peach. Large, oblong, yellow with beautiful blush—ships well and sells well. Trees hardy, bear young and bear immense crops—a strong grower. Will always be in demand on the markets.

FISHER — New U. S. Patent, Very Early Yellow Freestone
Originator calls it "The Earliest Yellow Freestone." The fruit is large for such an early peach, a bright blush covers nearly half of the peach. Fisher ripens nearly 6 weeks before Elberta—one of the earliest high quality yellow freestone peaches. Sets heavy crops and is large when thinned.

GOLDEN JUBILEE — New, Very Early Yellow Freestone
A beautiful, very early, large peach of Elberta type that has quickly become a great favorite with fruit growers. Fruit clear bright yellow, large oblong shape.

Delicious flavor with no Elberta bitterness. Ships better than most Early Varieties. Answers the big demand for a very early yellow freestone. We propagate from RECORD-BEARING Strain. Ripens about 25 days before Elberta. Ideal for Roadside stands, Local Markets and Home consumption.

HALATE — New, Late Yellow Freestone
A delicious new peach discovered in Stark's Famous Test Orchards. Ideal to extend Hale-Elberta season. Fruit somewhat resembles Hale in appearance, fine quality, but tree has vigor of Elberta. Trees bear young and produce excellent crops of highly flavored peaches. Fruit large, high quality—better flavor than Hale or Elberta. Halate is one of the finest varieties for canning as well as eating out of hand. Genuine Halate Tree are SOLD ONLY by Stark Nurseries.

HALEHAVEN — New Early Yellow Freestone
Although just recently introduced, HALEHAVEN is steadily gaining favor because of its Large size, Beautiful color, thick skin and the fact that it is an Early Yellow Freestone. Fruit is large, round like Hale with attractive contrasting red and yellow color. One of the most beautiful of all peaches. Ripens about 17 days before Elberta.

HARDY-BERTA — (U. S. Patent) New, Late Yellow Freestone
The peach that every grower wants—one that bears when others fail—when peaches are scarce and prices are high. For years we searched for a late peach of Elberta type and Elberta's natural market value—but larger, better quality. Originator says "Hardy-Berta is the hardiest peach I know—stood 20 degrees below and fruited."

Fruit 30% larger than Elberta. Beautiful golden yellow, with red blush—better quality than Elberta—no bitterness. Good shipper. Ripens about 2 weeks after Elberta. Trees Patented and SOLD ONLY by Stark Nurseries.

JUNE ELBERTA — Earliest of All Yellow Peaches
Big, handsome, highly colored peaches of high quality. Unlike most extremely early sorts, it is a first class shipper. Because of its early season, beauty and quality is always in demand at high prices. Ripens about a month before Elberta—about with Red Bird Cling. Introduced by Stark Bro's.

KRUMMEL OCTOBER — Latest Yellow Freestone
The latest—and one of the best quality of all late peaches. Glossy red and gold—hangs on until frost. Krummel is ready for the market and for eating when it has no competition and is always in demand. Fruit is large, almost round, deep yellow with Carmine red cheeks. Luscious sweet—no bitterness next to seed. Finest, richest flavor when canned. Krummel should be in every orchard.

LATE ELBERTA — Late Yellow Freestone
This splendid peach fills the gap between Hal-Berta Giant and Krummel October and should be in each orchard to give succession of ripening. About 25 days after Elberta—of Elberta type—but fruit is larger and better quality. Ships perfectly. Does not rot. Fruit is high in flavor, sweet, with no bitterness at the pit.

RED BIRD CLING — Best-Known Very Early White Peach
Immense size—"red as fire"—perfectly round—beautiful—and has consistently topped all markets, because it is the first on the market. The fruit is bright glowing red on a background of creamy white. An ideal shipper. Extremely hardy. The best peach of its season.

WORLD'S EARLIEST — (U. S. Patent Pending) Earliest Peach. A New peach which is even earlier than Red Bird. Dr. E. L. Morris wrote: "This is the earliest peach in the world—ripens with strawberries—10 days before Mayflower. Ships like Red Bird." Fruit is Red Bird type, medium size, firm, creamy white flesh.

Burbank's Peach — Fuzzless
Burbank declared "The very best of my peach—best as Champion Peach. Waxy, fuzz-free skin of flaming wine-red, blushed over with golden orange—rich in honey sweetness and flavor." A new fruit thought for the home. Hardy Bear immense crops. Trees SOLD ONLY by Stark Bro's.

LUTHER BURBANK
"Wizard of Horticulture"
Luther Burbank was a genius to whom all people owe an everlasting debt of gratitude. For nearly 50 years he labored to give mankind new and distinctly different marvelous new and better fruits and flowers.

THE WORLD'S BEST

ELEPHANT HEART
Burbank's New Plum

BURBANK'S GREATEST NEW PLUMS

Trees Sold Only by Stark Nurseries, Louisiana, Mo.!

BURBANK'S NEWEST PLUMS

"America's finest flavored yellow plum" declares a leading Horticulturist and Author. Very early—even earlier than Early Shiro. Large—2 to 2½ inches in diameter. Freestone when fully ripe. Mild, sweet flavor, aromatic, with just enough acid near seed. Flesh solid. Good shipper. Hardy.

Early—Best of Burbank's Red-Skinned, Yellow-Fleshed Plums. Brilliant, Cherry-Red. Large, measuring 2¾ inches. Very thick, rich, creamy yellow flesh. Sweet, mild, delicious. Good shipper.

LIBERIOUS — U. S. Patent

Very Early Red-Fleshed Freestone. Has the same beautiful blood-red skin, heart shape and delicious flavor which characterizes Elephant Heart—an early ripening brother of Elephant—Ripens Two weeks earlier.

JUNE RED SKIN — U. S. Patent

Huge, Yellow-Fleshed, Red Skin Plum ripening a few days after Great Yellow. Sweet and Juicy. Very hardy.

PURPLE PLUMCOT — ½ Plum—½ Apricot

Early. Gorgeous purplish red with flesh blood-red clear to the pit. Rich, delicious. Perfect Freestone. One of the most delicious new fruits known. Heavy bearer. Hardy.

— Burbank's

Mid-Season. New Amazing Flavor. Freestone. Hardy. In this glorious new Plum, Burbank has given mankind the Largest, the most Delicious, the most Beautiful, Brilliant Red-Fleshed Freestone Plum in all the world—a huge Plum of alluring flavor, reminiscent of a big sweet Oxheart Cherry. Absolutely free from sharp acidity. Flesh meaty like that of an Oxheart Cherry—solid, not watery. A wonderful shipper and keeper.

GOLD — \$3,000.00 Plum (Trade-Mark)

Mid-Season. Our wonderful GOLD Plum has created a greater sensation than any other Burbank variety ever introduced with the exception of Elephant Heart.

Fruit clear, light golden yellow. When fully ripe a light cherry red. One of the hardiest. Succeeds everywhere. The ideal all-purpose plum. Excellent for planting in chicken yards and on dry, thin or clay soil. Get Genuine GOLD Trees from Stark Nurseries, Louisiana, Missouri.

EARLY GOLD — (Shiro)

Very early. Marvelously beautiful Burbank yellow plum. Large, sweet and excellent. Tree hardy. Bears immense crops regularly.

RED ACE — Mid-Season

Resembles Elephant Heart—new Burbank Plum—big firm, small seed. Sweet as sugar. Regular young and heavy bearer.

HONEYMOON — Mid-Season

A Yellow Plum in which Burbank combined the delicious flavor of the Green Gage and the heavy bearing qualities of the Japanese Hybrids. Heavy and Young bearer. Hardy.

STARK SELECT PLUMS

OMAHA — Mid-Season

Fruit very large, almost perfectly round, dark rich red. Flesh meaty and delicious. Tree as hardy and husky as an Oak and bears tremendous crops every year. Thrives in all sections—North, South, East and West. Introduced by Stark Bro's.

STARK GREEN GAGE — Mid-Season

Sweet as honey. Best of all Gage-type plums except Honeymoon. Greenish yellow. Large. Bears wonderful crops. Unsurpassed for canning and preserving. Introduced by Stark Bro's.

STARK DAMSON — (Big Mackey) — Mid-Season

Largest and best Damson. Freestone. Fruit deep purple—juicy—rich. Fine for preserves.

AMERICA — Very Early

America is large, glossy, coral red—a most beautiful and delicious plum. Hardy. Bears enormous crops every year. Introduced by Stark Bro's.

OTHER VARIETIES — See PRICE LIST, Page 11

Burbank Plum Creations: June Blood (Very Early); Monster (Early); Grand Prize Prune (Early); Orange Plumcot (Mid-Season); Purple Flame.

Stark Select Plums: Early—Red June, Santa Rosa, Abundance, Compass; Mid-Season—Indian Blood (Duarte) Underwood, Superior; Late—Burbank, Late Goose, Lombard Improved (Tatge), Tatge, Stanley Prune, German Prune, Italian Prune, Damson Shropshire, President Plum.

STARK GOLD — (Trade Mark)

A delicious Sweet Cherry that is really hardy! The originator wrote us "Surpassed in hardiness any cherry on my place; (Richardson Co., Nebr.) thermometer often registers 40 degrees below zero, and average winter reaches 25 to 30 degrees below. Stark Gold never missed a crop. Sells for 3 times the price of other cherries."

Fruit is immense size, glossy, almost transparent, pure, lustrous golden yellow without a touch of red. Quality superb. It ripens 2 weeks after Early Richmond and fruit holds on for 10 days or more. Solid meat makes it an excellent canning cherry. In Home Orchards and Commercial Orchards all over America Stark Gold is creating a sensation for Young, Heavy and Regular Bearing—and is winning the title of "The Bird-Proof Cherry." Get Genuine Stark Gold Trees from Stark Bro's Nurseries.

MONTMORENCY STARK — Mid-Season

The best strain of Montmorency. Fruit is large, flesh firm, ships perfectly. Tree is strong grower, sure and young bearer. Montmorency Stark and Montlate make it possible to have fresh cherry pies three times the usual period.

These 3 Great Cherries, prolong the harvesting, so orchards can be picked with one-third the numbers of pickers, and Canneries can operate 6 or 8 weeks instead of 2 or 3, thus greatly reducing costs and increasing profits.

MONTEALLY — (U. S. Patent)

Earliest of All Sour Cherries—2 Weeks BEFORE Montmorency Stark. Larger and Better than Early Richmond and Earlier. Color is a deep rich wine color with deep red juice. Flavor less tart than regular Montmorency.

One of our experts who investigated Montmorency reported "Monteally is going to put Early Richmond out of business." It is earlier and bigger and BETTER. Far superior for pies, preserves and canning. Because it has meaty flesh, and the fact that it is not so watery as Early Richmond and Montmorency, it is superior as a Shipping Cherry. Its EXTREME EARLINESS brings it on the market just when truly fine cherries command HIGHEST MARKET PRICES. Montmorency Trees are Patented and SOLD ONLY by Stark Bro's.

MONTLATE — (U. S. Patent)

Montlate ripens 2 weeks AFTER Montmorency Stark. John Porter of East Jordan (Mich.) Canning Co. says: "Montlate extends the Mont. season for gathering the crop as well as that for operating the canning factory. This is greatly to our advantage both as cherry growers and as canning factory operators." Fully equal to Montmorency Stark in young and heavy bearing. Fruit sells for the same high prices as English Morello, and bears heavier. Montlate Trees are Patented and SOLD ONLY by Stark Bro's.

STARKRIMSON — U. S. Patent

Most famous new Apricot. Grand Sweepstakes Winner at Stark-Burbank New Fruits Show. Fruit large—big as a peach and resembles a peach, in size and shape. Orange yellow, with bright red blush. Fine quality. Freestone. Originator says: "A regular producer here at altitude of 5554 feet. This year young tree bore 3 bushels of fine fruit." Tree Patented and SOLD ONLY by Stark Bro's.

STELLA — Hardier than a Peach

Fruit is large, beautifully colored and delicious quality. Originated in Nebraska where sub-zero weather makes it impossible for any but hardiest to thrive. Stella bears tremendous crops in Nebraska and even farther north.

BLACK TARTARIAN IMPROVED — Early
(Deacon) Best and Hardest, most dependable of large Black Tartarian Sweet Cherries. Ideal hardy, black team-mate for Stark Gold. Extra large. Black, Heart-shaped, purplish-red-fleshed. Recommended for both Home and Market.

STARK LAMBERT — Hardy Strain—Early

The largest Black Sweet Cherry, except Burbank's Black Giant. Skin glossy—tough enough to insure good shipping. Flesh firm, rich, sweet, juicy—of supreme quality. Our propagation is from a Parent tree which bore every year through a long period—and showed a marked improvement in hardiness and regular heavy bearing. It led also in size of fruit, gallons per tree, and vigor—producing crops after 24 degrees below zero.

RAINBOW STRIPE—Bud Sport of Lambert

The most unique Cherry in the world—a glorious big white Lambert in size, flavor and form. Great shipping cherry. Fine for Home and Commercial Orchards. Tree SOLD ONLY by Stark.

SUDA HARDY — Late

Where a late tart cherry is wanted Suda Hardy should be planted. Tree is perfectly hardy and the fruit is produced in immense quantities. Always sells readily at premium prices.

SCHMIDT'S BIGARREAU

Mid-Season—Sweet

Very large. Almost round. Beautiful dark Mahogany red skin. Dark red flesh.

NAPOLEON — Stark Strain—Late

A large, yellow, pink blushed cherry. Thrives in all Sweet Cherry Sections. Tree hardy. One of the heaviest bearers of all sweet cherries. Stark Strain is extra large size.

Burbank's BLACK GIANT — Sweet

Hardy. Sweet. Bloomed 100% after 26 below zero. In writing about this Great Cherry, Luther Burbank said, "Firm, deep blackish crimson skin, sugary sweet and delicious. Gigantic size—4 cherries weigh an ounce..." Fruit is uniformly large, despite enormous crops. Not subject to cracking. Flesh a mouth-watering red—almost purple around pit. Trees Sold ONLY by Stark.

Burbank's HONEYHEART

Late Sweet and U. S. Patent

Burbank wrote: "Beautiful—like Napoleon, but infinitely better quality. Skin is red and gold, but when fully ripe, a deep, rich, glowing red. Crisp juice-laden white flesh." Big—often one inch in diameter. Very small seed. Perfect freestone. Wonderful shipper. Resistant to cracking.

DYEHOUSE

Very Early. Better than Early Richmond—a week earlier. Best very early cherry, except Montmorency. Strong grower. Heavy bearer.

EARLY RICHMOND

Ripe about a week later than Montmorency and is not as good. Medium size, clear, bright red.

WINDSOR

Sweet. Profitable. Sells well. Ships well. Dark red. Extremely hardy.

**STAR
FEATURES OF
STARK
TREES**

Another Stark

Over 125 years experience—6 generations of the Stark family—goes into every tree we sell. Since 1816 when Stark Nurseries was founded, vast funds of experience in fruit and fruit-tree growing have been accumulated and are used for the benefit of Stark customers.

WILSON DELICIOUS — New—Large

Hardy. Early. After rigid testing in the Stark Test Orchard, Wilson Delicious apricot has shown itself to be our best hardy sort. Tree is the most vigorous of any variety in our orchard, very hardy—stood 26 below zero without being injured. Fruit ripens a week earlier than Moorepark and is 20% larger in size—beautiful, orange yellow color. Flesh firm, juicy, with a rich aromatic flavor. Fruit hangs well—splendid keeper. The best of all apricots. Stockham Brothers state: "5 to 10 days earlier than any other apricot and sold for far more than any other variety." Eating, Canning, Drying, NCS. Introduced by Stark Bro's.

FRUIT — Early Summer

Fruit large, orange yellow, flesh firm, good quality. Tree thrifty, hardy, productive.

We grow other ornamental plants besides those listed here and can supply our complete catalog upon request. FALL is an ideal time to plant. Get your order in EARLY—Now—while we have a good supply of top quality plants—and—BEAT THE PRICE RISE which is sure to come a little later. Prompt, direct shipment made at proper planting time—ACT NOW!

STARK SHADE TREES, FLOWERING SHRUBS AND HEDGES

STARK SHADE TREES

ALTHEA
(Hibiscus)
(Blooms in
Late Summer)

SILVER MAPLE (*Acer dasycarpum*)
Popular rapid growing, hardy tree to 40 ft. height. Ideal for street, lawn and park planting for quick, dense shade. Desirable and useful for all sections. Thrives on almost any soil.
Size 6 to 8 ft.
Price \$1.50 each; 10 for \$1.35 each

NORWAY MAPLE (*Acer platanoides*)
Beautiful, symmetrical tree with dark green foliage. Hard maple type, long lived but slower growing than Silver Maple. Very ornamental and attractive tree for street, lawn or park planting.
Size 6 to 8 ft.
Price \$2.95 each; 10 for \$2.50 each

LOMBARDY POPLAR (*Populus nigra italica*)
Tall, columnar, rapid growing tree of stately appearance. Ideal for background screen and skyline effect on lawns or in parks. Seldom more than 6 ft. spread with height up to 60 ft. Popular everywhere.
Size 6 to 8 ft.
Price \$1.10 each; 10 for \$1.00 each

AMERICAN ELM (*Ulmus americana*)
Our grandest shade tree, famous in American history. Medium rapid grower, succeeds everywhere. Wonderful street and lawn tree. Beautiful and stately in appearance. Very hardy.
Size 6 to 8 ft.
Price \$1.75 each; 10 for \$1.60 each

CHINESE ELM (*Ulmus pumila*)
Recently introduced from the Orient to become suddenly popular throughout the country. Most rapid growing shade tree. Height 50 feet. Grows anywhere even under adverse city conditions. Beautiful, small foliage on graceful willowy branches. Drought resistant.
Size 6 to 8 ft.
Price \$1.75 each; 10 for \$1.60 each

THURLOW'S WEEPING WILLOW
(*Salix elegans*)
Beautiful and graceful tree of drooping habits with yellowish green branches. Thrives best on damp ground or near a stream or pool. Rapid growth to 40 ft. height. Popular.
Size 6 to 8 ft.
Price \$1.50 each; 10 for \$1.35 each

SELECT STARK SHRUBS

JAPANESE BARBERRY (*Berberis thunbergii*)
Dwarf, compact growing shrub with small leaves and slender branches. Flowers small but followed by red berries that hang on bush all winter. Ideal for foundation, hedge or corner plantings. Foliage turns brilliant orange and scarlet in fall. Sharp protective thorns turn small animals and intruders. Can be trimmed to any desired height.
Size 18 to 24 inches. Price 35c each; 10 for 30c each; 100 for 25c each

THORNLESS JAPANESE BARBERRY
(*Berberis thunbergii*)
Same as above except it has no thorns. Can be used for same purpose as regular Jap. Barberry. Height 3 ft.
Size 18 to 24 inches. Price 55c each; 10 for 50c each; 100 for 40c each

JAPANESE RED-LEAVED BARBERRY
(*Berberis thunbergii atropurpurea*)
Attractive red or wine colored foliage through spring and summer. Height 3 ft. Similar in growth to Jap. Barberry. Red berries in fall. Distinctive appearance. Colorful all summer. Fine for foundation or hedge plantings.
Size 12 to 18 inches. Price 45c each; 10 for 40c each; 100 for 30c each

TRUEHEDGE COLUMNBERRY
(*Berberis thun. pluri. erecta*)
New, useful type of upright, compact growing Barberry. Ideal for formal hedges around flower gardens or lawn. Thick, glossy, dark green leaves. Can be trimmed to desired height up to 3 ft.
Size 18 to 24 inches. Price 55c each; 10 for 50c each; 100 for 40c each

BILLIARD SPIREA (*Spiraea billardi*)
Stately shrub with an attractive cone-shaped cluster of lavender-pink blossoms in June. Height 5 ft. For foundation and border planting.
Size 2 to 3 ft. Price 45c each; 10 for 40c each

BUTTERFLY BUSH (*Buddleia farquhar*)
Covered with clusters of purple lilac-like flowers from July till frost. Very attractive. Height 5 ft. Used around foundation, for specimen or border planting. Attracts butterflies. Perennial in northern sections.
Size 2 year. Price 50c each; 10 for 45c each

CORAL STEM DOGWOOD (*Cornus alba sibirica*)
Attractive shrub with bright red contrasted branches in winter and clusters of creamy white flowers in May. Height 6 ft. Useful as lawn shrub and in shrub borders. Blue-gray berries in fall.
Size 2 to 3 ft. Price 55c each; 10 for 50c each

SLENDER DEUTZIA (*Deutzia gracilis*)
Low, dense, compact shrub of exceptional merit that produces a profusion of small, bell shaped white blossoms in clusters during May. Fine for foundation and yard planting or for flowering hedge. A favorite of long standing. Height, 2 to 3 ft.
Size 12-18 ins. Price 70c each; 10 for 65c each

BORDER FORSYTHIA (*Forsythia intermedia*)
A gracefully drooping shrub with bright yellow, bell shaped flowers appearing early in the spring before the foliage. A real harbinger of Spring. Height, 6 ft. Beautiful shrub with glossy green foliage. Useful for foundation yard or park planting.
Size 2 to 3 ft. Price 55c each; 10 for 50c each

ROSE ALTHEA (*Hibiscus syriacus*)
A tall, upright growing shrub to 8 ft. A showy, large, double rose-like bloom resembling Hollyhocks. Bloom from July until frost. Useful for tall accent in foundation or border planting or for flowering hedges. Can also turnish in white, red and purple.
Size 2 to 3 ft. Price 55c each; 10 for 50c each

SNOWHILL HYDRANGEA
(*Hydrangea arborescens grandiflora*)
Begins blooming in June and lasts until late summer. Large, ball shaped white blossoms that are very showy. Medium height, dense compact bush to 4 ft. For foundation and border planting. An old favorite.
Size 18-24 ins. Price 65c each; 10 for 60c each

PINK HYDRANGEA (*Hydrangea pan. grand.*)
Very attractive with its huge cone-shaped panicles of white blossoms that often measure one foot in length. When blossoms are fully opened they turn pink. Blooms in July and blossoms last until late summer. Height fully grown, 8 ft. Can be pruned to tree form or left to grow as bush. Ideal as specimen, foundation or border shrub.
Size 18-24 ins. Price 65c each; 10 for 60c each

WINTER HONEYSUCKLE
(*Lonicera fragrantissima*)
Tall growing shrub to 8 ft. height of waxy cream color. Fragrant blossoms in April. Compact growth. Fine for border, screen or informal hedge planting.
Size 2 to 3 ft. Price 45c each; 10 for 40c each

MORROW BUSH HONEYSUCKLE
(*Lonicera Morrowi*)
Tall growing, wide spreading, compact shrub that bears attractive white blossoms turning to yellow in April and May followed by red berries in summer and fall. Used for tall border plantings and untrimmed hedges or screen planting.
Size 2 to 3 ft. Price 45c each; 10 for 40c each

RED TATARIAN HONEYSUCKLE
(*Lonicera tatarica sibirica*)
A rapid, tall growing shrub that attains a height of 12 ft. Pink blossoms in April followed by red berries in summer and fall. Dense, compact bush with dark green foliage. Useful for untrimmed hedges or tall borders.
Size 3 to 4 ft. Price 60c each; 10 for 55c each

SWEET MOCKORANGE
(*Philadelphus coronarius*)
A profusion of very fragrant white flowers in May and June. Tall spreading bush to 10 ft. in height with drooping branches. Dense. Fine for tall screens. Long a favorite.
Size 3 to 4 ft. Price 55c each; 10 for 50c each

LEMOINE MOCKORANGE
(*Philadelphus lemoinei*)
Medium height shrub to 6 ft. with cup-shaped, fragrant white blossoms in May and June. Bush dense and compact. Beautiful when in bloom. Useful for foundation, border and natural flowering hedge.
Size 2 to 3 ft. Price 60c each; 10 for 55c each

FLOWERING ALMOND (*Prunus grandiflora*)
Early blooming, dwarf shrub with small, very double pink rose-like blossoms that entirely cover slender branches before leaves appear in Spring. Height 3 ft. Beautiful shrub and a popular favorite for foundation planting or border.
Size 18-24 ins. Price 70c each; 10 for 65c each

WHITE KERRIA (*Rhodotypos kerrioides*)
A useful shrub with crinkly, dark green leaves and snowy white strawberry-like blossoms. Blooms in April and May with scattering blossoms throughout the season. Medium height to 5 ft. Good for foundation or yard planting.
Size 2 to 3 ft. Price 50c each; 10 for 45c each

RED RUGOSA ROSE (*Rosa rugosa*)
Colorful shrub rose with bright red flowers that bloom practically all summer. Blossoms followed by bright orange colored seed pods. Adds colorful interest to the foundation or border planting. Height 4 ft.
Size 18-24 ins. Price 65c each; 10 for 60c each

PUSSY WILLOW (*Salix discolor*)
Tall upright shrub, ideal for tall borders. Fuzzy silver gray flower buds appear in early spring before leaves and are popular for indoor decorations. Rapid grower, prefers moist soil. Height 15 to 20 ft.
Size 3 to 4 ft. Price 80c each; 10 for 75c each

ANTHONY WATERER SPIREA
(*Spiraea anthony waterer*)

Very showy, dwarf shrub that is covered with rosy-red clusters of blossoms during May and later. Low growing, dense, compact bush seldom attains height of more than 2 ft. Fine for low foundation, entrance or yard planting and low flowering hedge. A favorite.
Size 18-24 ins. Price 60c each; 10 for 55c each

THUNBERG SPIREA (*Spiraea thunbergii*)
Earliest blooming spirea. Slender drooping branches literally covered with white flowers before the leaves appear in April. Dense compact to height of 4 ft. Splendid for foundation, entrance and lawn planting.
Size 2 to 3 ft. Price 50c each; 10 for 45c each

VANHOUTTE SPIREA (*Spiraea vanhouttei*)
Literally a snowbank with its thickly set clusters of pure white flowers on slender gracefully arching branches during May. Very popular for foundation, entrance, border and flowering hedge planting. Familiarly known as "Bridal Wreath."
Size 3 to 4 ft. Price 40c each; 10 for 35c each

GARDEN SNOWBERRY
(*Symphoricarpos racemosus laevigatus*)
Low growing shrub with slender branches that is admired for its clusters of large white berries that are borne after the small pinkish-white blossoms during late summer. Fine for foundation and low border planting.
Size 18-24 ins. Price 40c each; 10 for 35c each

PERSIAN LILAC (*Syringa persica*)
A profuse blooming lilac with large clusters of fragrant, lavender flowers in April and May. Height 8 ft. For high foundations, specimen planting and flowering hedge. A splendid lilac.
Size 2 to 3 ft. Price 70c each; 10 for 65c each

COMMON PURPLE LILAC (*Syringa vulgaris*)
An old favorite of Grandmother's garden with large purple or white clusters of fragrant bloom in April and May. Height 12 ft. Useful as specimen or for tall border planting.
Size 2 to 3 ft. Price 50c each; 10 for 45c each

LUDWIG SPAETH LILAC (*Syringa vulgaris*)
An outstanding variety of French lilac with large clusters of purplish red blossoms during April and May. Fine for lawn or border planting. Height 6 ft. (Other colors and varieties of French lilacs can be supplied also).
Size 2 to 3 ft.
Price \$1.20 each; 10 for \$1.10 each

AFRICAN TAMARIX (*Tamarix africana*)
Unusual tall shrub with evergreen-like foliage and fluffy light pink blossoms appearing in clusters at the ends of the branches in May. Height 10 ft. but can be sheared to lower height if desired. Good for border planting or for accent at foundation.
Size 3 to 4 ft. Price 60c each; 10 for 55c each

AMERICAN CRANBERRY BUSH
(*Viburnum americanum*)
Popular tall-growing shrub that bears large clusters of snowy white blossoms in May followed by clusters of scarlet berries in summer and fall. Dandy shrub for tall screen planting. Height 8 ft.
Size 2 to 3 ft. Price 55c each; 10 for 50c each

PINK WEIGELA (*Weigela rosea*)
A favorite of long standing with a profusion of bright pink blossoms covering the drooping branches in May and June which gives it unsurpassed beauty. Height 6 ft.
Size 3 to 4 ft. Price 65c each; 10 for 60c each

RED WEIGELA (*Weigela Eva Rathke*)
Heavy bloomer with colorful dark red bell-shaped blossoms during May. Adds attractive color to foundation or border planting. Height 5 ft.
Size 2 to 3 ft. Price 90c each; 10 for 85c each

YUCCA (*Yucca filamentosa*)
A herbaceous plant with tough sword-like upright rigid rosette of leaves about 3 ft. in height. Flowers creamy white cup-shaped produced on a heavy central stock during July. Useful as specimen plant and along low borders. Also for rock garden and cemeteries.
Size 2 year. Price 80c each; 10 for 75c each

HEDGE PLANTS

AMUR PRIVET (*Ligustrum amurense*)
Hardy northern type, rapid growing privet that makes an attractive hedge. Can be sheared to any desired height for dense hedge planting around the lawn or formal flower garden.
Size 18 to 24 inches. Price 25c each; 10 for 20c each; 100 for 15c each

CALIFORNIA PRIVET (*Ligustrum ovalifolium*)
Rapid growing hedge with attractive dark green foliage. Excellent clipped hedge plant where winters are not too severe.
Size 18 to 24 inches. Price 18c each; 10 for 12c each; 100 for 8c each

ORNAMENTAL PLANTS AND FRUIT TREES WILL MAKE YOUR HOME-GROUNDS

These sheltering Stark trees and graceful blooming shrubs framed this house and transformed it into a true home. Stark **QUALITY ORNAMENTALS** give vigorous, quick growth and years of lasting beauty.

If you want the enjoyment of a profusion of lovely roses from June until November, plant Stark Everblooming Hybrid Tea Roses this Fall. Stark Roses are Big, Husky, Hardy, 2-Year-Old Field Grown Plants. Plant **NOW**—Stark Everbloomers planted **THIS FALL** will give you a delightful full-blooming garden of fragrance and color beginning early next summer.

Stark's Everblooming Roses

Plant Them This Fall and Enjoy Blooms All Next Summer

HYBRID TEA ROSES

BURBANK'S NEW DAWNGLOW (U. S. Patent)—Salmon Pink

A delicate Salmon Pink Rose which gives you a wealth of roses from early spring till late fall, even during hot dry summers. Plant is tall growing and vigorous, producing blooms on long strong stems. Excellent for cutting.

\$1.25 each; 10 for \$1.10 each

BURBANK'S NEW SCARLET FLAME Brilliant Red

A flaming, flashing constant blooming red rose sensation created by Luther Burbank. Vigorous plant, literally covered with fiery red roses from early summer till hard frost. If you want red roses from June till November plant Scarlet Flame.

\$1.25 each; 10 for \$1.10 each

THE PERKINS Two-Tone Pink

40 lovely petals with vivid Orange-Cerise on the outside and soft Salmon-Pink on the inside combine to give you a beautiful two-tone Pink Rose you can depend on for a wealth of long-stemmed mildly fragrant roses all summer. A hardy, bushy grower. A rose of matchless beauty and one of the favorites for cutting.

90c each; 10 for 80c each

Each large, brilliant crimson bloom is borne singly on a long strong stem, making it one of the most valued roses for cutting. Very double. Fragrant.

\$1.00 each; 10 for 90c each

The Universal favorite everblooming Crimson Rose. It charms continuously with its delightful color, its beautiful form, its intense Rose fragrance and its long strong stems. It is vigorous, healthy—one of the best Red Roses.

\$1.00 each; 10 for 90c each

Because it blooms continuously from June till hard frosts, this brilliant crimson rose is one of America's favorites. Blooms are borne in clusters on long stems.

75c each; 10 for 70c each

JONKHEER J. L. MOCK Two-Tone Pink

Immense blooms of deep pink and silver are borne on almost thornless strong stems.

80c each; 10 for 75c each

Long shapely buds open to fine-petaled creamy white flowers with a slight lemon tint in the center. When fully open, the delightfully fragrant blooms are cream-white. The favorite rose for cutting.

85c each; 10 for 80c each

MARGARET McGREDY Orange-Scarlet

In the newly opened flower the color is a scintillating orange-scarlet which ages to a pleasing carmine-rose. Rose fragrance. One of the best and most popular. Blooms constantly from June till hard frost.

\$1.00 each; 10 for 90c each

Large, semi-double flowers in a color harmony of Orange Red and Salmon, producing an indescribably beautiful Copper color. Known throughout the world as the Daily Mail Prize Winner.

80c each; 10 for 75c each

Pointed buds of rich yellow. Very fragrant. Continuous bloomer.

80c each; 10 for 75c each

A superb sport of the famous RADIANCE with all the excellent qualities which make RADIANCE the most dependable and most satisfactory rose in America. In color, Mrs. Chas. Bell is a Shell-Pink with a heavy Salmon suffusion, giving it the true opalescence of a pearl. Strong grower. Long strong stems. Will thrive just like RADIANCE and RED RADIANCE. For a variety of lovely blooms, plant the three Radiance—Pink Radiance, Red Radiance and Mrs. Chas. Bell.

80c each; 10 for 75c each

A sport of Radiance with all its superior qualities of vigorous growth, dark green foliage, and disease resistance. It has the same exhilarating perfume as Radiance, but the color is a brilliant Cerise-Red which is especially brilliant in lime soil. Plant with Radiance and Mrs. Chas. Bell for a profusion of lovely roses from early summer till hard frost.

80c each; 10 for 75c each

RADIANCE — Pink

Has headed the list for years and is still one of the most popular and satisfactory Pink Roses. It grows and thrives in every soil and climate where Roses can be grown, and blooms continuously. The large, two-tone Pink Rose—light inside and almost carmine on the outside of the petals—is similar in form to a Darwin tulip. Radiance, Red Radiance and Mrs. Chas. Bell are the reliable combination for long-stemmed roses from June till November.

80c each; 10 for 75c each

SUNBURST — Yellow

One of the best yellow everblooming Roses and highly prized by all who have it in the garden. Extremely long, orange-yellow buds of delightful fragrance. Blooms continuously.

85c each; 10 for 80c each

TALISMAN

Flower of variable color ranging from rich Scarlet and Gold to Deep Rose and Pale Yellow. Fragrant.

\$1.00 each; 10 for 90c each

WM. R. SMITH — Salmon-Pink

Long, almost thornless stems produce single long pointed buds which open to flesh pink flowers. Excellent for cutting. Blooms all the time from June till November.

85c each; 10 for 80c each

Hybrid Perpetual Roses

These large flowered Very Hardy Roses often grow to 4 feet or more

FRAU KARL DRUSCHKI

(Snow Queen)—Pure White
Universally acclaimed as the most magnificent white rose—and has won the title of "Snow Queen" throughout America. Long buds are blushed with pink, but open into immense snow-white flowers often more than 4 inches across. A wealth of bloom in June with occasional blossoms through the summer until frost. Winner of many prizes and medals.

65c each; 10 for 60c each

Brilliant Velvety Crimson color of this rose has made it the standard of color for years. Plant is very hardy. Pruned and thinned the large, fragrant roses are perfect. Left to grow at will, the big husky bush is a blaze of vivid color in June.

60c each; 10 for 55c each

Immense blooms of Deep Scarlet. Very vigorous—canes often measuring 6 to 10 feet.

65c each; 10 for 60c each

Baby Rambler, Bush and Shrub Roses

BABY RAMBLER

Red, White, Pink or Salmon

A dwarf type, everblooming rose about 2 ft. high. Best for bedding, edging, foundation plantings. Produces clusters of bright blooms all summer.

80c each; 10 for 75c each

ROSE, F. H. GROOTENDORST Brilliant Red

A shrub rose. Brilliant clusters of bright crimson bloom.

80c each; 10 for 75c each

In the late spring covered with bright golden blossoms.

50c each; 10 for 45c each

VINES

CLEMATIS

SWEET AUTUMN—Masses of white, very fragrant blooms in Autumn.

55c each; 10 for 50c each

JACKMAN—Large, rich velvety purple blooms cover entire plant in June and July.

\$1.25 each; 10 for \$1.10 each

HONEYSUCKLE

HALL'S JAPANESE—Very fragrant. Creamy and Yellow flowers all summer.

50c each; 10 for 45c each

IVY

ENGELMAN'S—Rapid growing Ivy. Clings to walls.

50c each; 10 for 45c each

CLIMBERS

BURBANK'S COPPER CLIMBER (U. S. Patent)

First of its kind. A hardy NEW Burbank Creation so distinctive in its harmony of glowing coppery salmon it is difficult to describe. Long pointed tea-rose-like buds are borne on long stems which make it a good cutting rose.

\$1.25 each; 10 for \$1.10 each

BURBANK'S SNOWWHITE CLIMBER (U. S. Patent)

New, Hardy Burbank Creation. The World's first white climber with large double tea-rose-like flowers. Delightfully fragrant. Long stems. Fine for cutting. Burbank's Copper Climber and Burbank's Snowwhite Climber are Patented and can be SOLD ONLY by Stark Bro's Nurseries.

\$1.25 each; 10 for \$1.10 each

AMERICAN PILLAR — Pink

A world-wide favorite. For June weddings it is a marvel, as it lasts long after cutting. Open-faced flowers of varying shades of pink with white centers and long golden anthers come in large clusters of 25 to 40 flowers. Thrives from Canada to the Gulf.

65c each; 10 for 60c each

One of the first Climbers to bloom, and gives a profusion of large, fragrant red flowers. Magnificent on trellis or porch with flowers almost covering the entire plant.

65c each; 10 for 60c each

DOROTHY PERKINS — Pink

Very vigorous and hardy. Clusters of bright rosy pink flowers convert this rose into a bower of beauty in late Spring. Fine for arbors, fence or trellis.

55c each; 10 for 50c each

EXCELSA — Dark Red

Known as the "Red Dorothy Perkins," it is the most dependable red Rambler. Hardy, disease-resistant.

55c each; 10 for 50c each

GARDENIA — Yellow

Early blooming. Tea-rose shaped buds of unusual fragrance open into cream colored flowers which are fine for cutting.

80c each; 10 for 75c each

MARY WALLACE — Clear Pink

One of the most beautiful clear pink, large flowered climbers, which are borne on long strong stems and are excellent for cutting. Often gives recurrent bloom all summer.

85c each; 10 for 80c each

PAUL'S SCARLET CLIMBER

Brilliant Red

The large flowers borne in clusters are brightest scarlet, and gives a flashing display of color in June and lasts for several weeks. The best bright red climber and does not fade.

80c each; 10 for 75c each

STARK PEONIES

Our selection of varieties

50c each; 10 for 45c each

EDULIS SUPERBA — Pink

STARK BRO'S NURSERIES, Louisiana, Mo.

Subject to terms and conditions of your current Price List and the following agreement, s/bp Nursery Stock as listed for which I enclose \$ \$

The following agreement, between the undersigned and Stark Brothers Nurseries and Orchards Company, of Louana, Missouri, relates to the purchase by the undersigned of STARKING (Trade-Mark) (Stark Bros Double-Red Delicious) apples (or) GOLDEN DELICIOUS (Trade-Mark) peaches and (or) STAYMARD (Trade-Mark) apple trees and (or) HAL-BERTA GIANT (Trade-Mark) peach trees and (or) any of the LUTHER BURBANK NEW TREE OR PLANT VARIETIES. Owing to the great expense of the wide-spread testing and investigation of these valuable trees and plants, and the great cost of their introduction, Stark Brothers Nurseries and Orchards Company is protecting itself as well as the public from the imposition and substitution often practiced by unscrupulous dealers. This is intended to prevent fakers from misbranding and marketing inferior fruits as genuine. Furthermore, this will enable growers who purchase Genuine Stark Trees or plants of the above named varieties to reap the reward of the high price on the markets for the fruit of these high quality trees and plants without having the damaging influence of bogus and inferior sorts which may be attempted to be marketed as genuine. Thus the reputation for long keeping, high quality and big profits of these fruits will be maintained and may be protected by the cooperation of Stark Brothers Nurseries and Orchards Company and the purchasers of any of the above named varieties. Therefore, in consideration of the agreement of the undersigned not to give away or sell or permit anyone else to give away or sell or to take these STARKING (Trade-Mark) apple trees and (or) GOLDEN DELICIOUS (Trade-Mark) apple trees and (or) STAYMARD (Trade-Mark) apple trees and (or) HAL-BERTA GIANT (Trade-Mark) peach trees and (or) any of the LUTHER BURBANK NEW TREE OR PLANT VARIETIES or their progeny or scions, buds or cuttings from these trees herein mentioned or their progeny or any other STARKING (Trade-Mark) apple trees and (or) GOLDEN DELICIOUS (Trade-Mark) apple trees and (or) STAYMARD (Trade-Mark) apple trees and (or) HAL-BERTA GIANT (Trade-Mark) peach trees in the future by Stark Brothers Nurseries and Orchards Company for a period of twenty-five (25) years after any such trees and (or) plants are so furnished and the further consideration of the sale of any of the foregoing trees and (or) plants named in this purchase agreement, and (or) plants so furnished and (or) plants named in this purchase agreement, the undersigned hereby agrees that any nursery stock sold by Seller, in and to the undersigned, shall be so labeled, and that this purchase agreement be planned to make this agreement a condition of the transfer. In the event that any nursery stock sold by Seller, Company proves untrue to name as labeled, Seller Company agrees, on satisfactory proof to it of such untrue to name, to refund the portion of the order so proven to be untrue to name, or, at its option, to refund the purchase price paid therefor — if Seller Company is notified that portion of the order so proven to be untrue to name, or as the Seller Company does not give any warranty, expressed or implied, in respect to any nursery stock sold by it, the purchaser's, or any one else's damages, if any, for any breach of this contract, or any special contract herein contained, by Seller Company, shall be limited to the refilling of that portion of the order, or to the refunding of the purchase price paid therefor, as above stated. I also understand that Patented Varieties purchased by me are protected by U. S. Patent Laws, and have read and hereby agree to all these agreements and terms of sale.

For Naming This New Stark-Burbank Plum

You May Win \$200.00 Cash GRAND PRIZE—or One of 109 Other Cash Prizes for Naming This Marvelous NEW Stark-Burbank Plum

A RARE PRIVILEGE—A GREAT HONOR—AND CASH PRIZES
IT'S FUN — IT'S EASY — ANYONE CAN ENTER THIS CONTEST

A great NEW Luther Burbank Fruit has been born—and we want YOU Stark customers to have the honor of naming it. You are offered the rare privilege of suggesting a name for this Sensational New Plum created by the world-famous Master Plant Breeder, Luther Burbank. Get your whole family to help decide on a name for this NEW Plum—father, mother, boys and girls. You will find it lots of fun and you may be the WINNER of the \$200.00 CASH Grand Prize or one of the other 109 Cash Prizes.

We are confident this NEW Plum will be honored with a Plant Patent by the U. S. Government. The winning NAME and the name of the WINNER will be announced in Magazines, Farm Papers, Newspapers and over the Radio. This NEW Plum will be known throughout the land by the name suggested by the Winner. YOU MAY BE THE WINNER of this great honor as well as the \$200.00 Cash GRAND PRIZE.

- EASY RULES FOR PLUM-NAMING PRIZE CONTEST**
1. Print the name you suggest for the New Stark-Burbank Plum on the Entry Blank at the bottom of the Order Blank on Page 15. Also print your own name and address.
 2. Write your order for \$3.00 or more worth of Stark Nursery Stock (for this Fall or next Spring Delivery) on Order Blank on Page 15, and mail both your order and your Entry to Stark Bro's Nurseries, Louisiana, Mo.
 3. Contest closes midnight, November 29, 1941.
 4. A name may consist of one or more words, singly or in combination. These may be proper names, nouns, adjectives, etc. Rancy entries do not count extra. Entries will be judged for Originality, Uniqueness and Suitability.
 5. Only one name may be submitted by any one customer.

Everybody Wins an Award

Everybody who enters this Plum-Naming Contest gets an award. In addition to the 110 Cash Prizes, thousands of a NEW Variety—Burbank Rose Bushes will be given away—everblooming, flashing, fiery-brilliant blooms. One bush will be given to every contestant who sends in a name for this NEW Stark-Burbank Plum in accordance with the printed rules below.

These Hints May Help You Win!

Read the description of this NEW Stark-Burbank Plum in the panel at the right—study the Plum names on Pages 10 and 11 of this Book—"Burbank's Elephant Heart," "Burbank's Flaming Delicious," "Gold," and others. Then decide on a name for this amazingly delicious NEW Stark-Burbank Plum—it can be a name based on the qualities of the Plum or any kind of name you wish—there are no limitations on the kind of name you may send in. The name you send may be selected by the Judges as the WINNER of the \$200.00 Cash GRAND PRIZE or one of the other 109 Cash Prizes, so send in your Entry without delay.

90 Cash Prizes . . \$1.00 Each

110 Cash Prizes in all. Contest Closes Saturday, November 29th, 1941.

READ ABOUT THIS GREAT STARK NEW PLUM THEN TELL US WHAT YOU THINK IT SHOULD BE NAMED

This plum has skin of a rich red-blushed color with an undertone of golden yellow. The flesh is golden yellow, honey-sweet in taste, with a delicious flavor of rare purity—sweet right down to the seed. The flesh is firm and juicy with no sharp tang or acid taste. The NEW Stark-Burbank Plum grows to large size, has proven hardy and disease-resistant. The tree is very prolific and is an exceedingly young bearer—3-year-old trees bore heavy crops this year. This NEW Burbank Plum is undoubtedly one of the most delectable plums in the world.
